

EXPEDITED SERVICE PARTNERS EVENT SERVICES

Power Generation

We provide a complete power generation solution for your event, including installation of a generator tailored to your power needs and fuel management, ensuring a hassle-free experience.

Temporary Climate Control

ESP provides reliable temporary climate control solutions to keep your event space cool in the summer and warm in the winter.

Temporary Lighting

ESP offers temporary lighting solutions that enhance safety, visibility, and ambiance for any event.

Who We Are?

Expedited Service Partners is a global provider of turnkey solutions in power generation, climate control, water supply, temporary lighting and sanitation solutions. We focus on cost-effective, timely emergency response and advanced technology, aiming to build partnerships and positively impact communities. ESP is available 24/7, ready to assist whenever needed.

Our Event Services

Expedited Service Partners delivers complete event support with dependable temporary power, fueling, climate control, lighting, and portable restroom facilities. From small gatherings to large-scale productions, our experienced team provides seamless setup, 24/7 support, and expert coordination to ensure your event is powered, comfortable, and fully operational — no matter the location.
